Nitrox GX-62 LED gaming mouse

The Nitrox GX-62 LED gaming mouse is the ideal entry-level gaming model. In addition to its ergonomic design and the RGB LED lighting, it also has a pleasant, keystroke and a smooth scroll wheel. The built-in SUNPLUS 180A sensor, which can be set in four stages up to 3200dpi, enables precise gaming and working.

Other features include the side forward and backward buttons and the 1.65m long, sleek USB cable with built-in ferrite core, which makes independent of batteries.

✓ergonomic gaming mouse with finger rest
✓RGB LED lighting with 7 alternating colors
✓dpi-number adjustable in four steps (up to 3200dpi)
✓sleeved USB cable with ferrite core
