

Argus RS-051 RGB – 120mm fan with RGB effects

The smooth-running 120mm RGB LED fan from Argus offers a stylish effect with a total of 12 RGB LEDs, which are located behind a semi-transparent ring. Rubberized pads in the fan corners on both sides of the fan ensure vibration-free operation and leave the option open whether the fan should suck in cool air or blow the warm air out of the case.

The connection is made via a 2pin, which can be connected to the reset switch of the case, for example, and thus makes it independent of mainboards with RGB headers, which makes the fan compatible with almost every case and system. The fan can be combined individually or with a variety of other RS-051 and switched synchronously.

- ✓ 12 RGB LEDs
- ✓ Vibration-free operation thanks to rubberized pads
- ✓ Connection via 2pin (e.g. reset switch of the case)
- ✓ Expandable with a variety of other RS-051

Specifications

Fan dimension (H/W/D)	25/120/120mm
LEDs	12
Fan speed	900rpm
Rated voltage	12V
Air flow	50.12cbm/h
Noise level	22dBA
Connectors	2pin (e.g. over reset switch) Power over Molex connector
Package dimension (H/W/D)	170/123/28mm
Weight (net)	135g
Weight (gross)	160g
Packing units (VE/VPE/PAL)	1/60/2160
Warranty	24 Months
Article number	88885508
EAN-Code	4260455645119
Scope of delivery	Fan screws Manual (german, english)
Features	Connection via 2pin (e.g. reset switch of the case) Individually or combinable with other RS-051 Semi-transparent ring with a total of 12 RGB LEDs Rubberized fan corners for vibration-free operation Fluid bearing
