Argus RS-061 RGB – stylish fan with RGB effects

The Argus 120mm RGB LED fan from Argus offers a stylish effect with its total of 8 internal RGB LEDs. Rubberised supports in the fan corners, on both sides of the fan, ensure vibration-free operation and leave the option open whether the fan should suck in cool air or blow the warm air out of the housing.

The connection is temperature controlled via the 4pin PWM connector on the mainboard and is also connected to the 3pin 5V RGB header on the mainboard, which is responsible for the synchronous colour changes of all connected components.

- ✓ 8 RGB LEDs
- ✓ Vibration-free operation thanks to rubberized pads
- ✓ Connection via 4pin PWM
- ✓ Color control via 3pin 5V RGB header on the motherboard

Specifications

Fan dimension (H/W/D)	25/120/120mm
LEDs	8
Fan speed	1200rpm
Rated voltage	12V
Max. current of the LEDs	0.5A
Air flow	59.47cbm/h
Noise level	22dBA
Connectors	4pin PWM Specific 5pin connection (only for Fan Set Argus RS-04 o. RS-06) 3pin RGB header connector for 5V digital
Package dimension (H/W/D)	170/123/28mm
Weight (net)	120g
Weight (gross)	145g
Packing units (VE/VPE/PAL)	1/60/1800
Warranty	24 Months
Article number	88885531
EAN-Code	4260455645614
Scope of delivery	Fan screws Manual (german, english)
Features	Individually or for Argus RS-06/ RS-04 Fan Set usable Y-connector for 3pin 5V RGB motherboard control 8 internal RGB LEDs in total Rubberized fan corners for vibration-free operation Fluid bearing
