## Argus RGB-Fan Set RS-08 – makes your world more colorful!

The three 120mm RGB fans from Argus provide great lighting for your PC case and offer over 300 different effects and modes with the included wireless remote control and control unit. The microphone integrated in the control unit is also sensitive to ambient noises, such as Music, and changes the effects and colors of the connected fans depending on the volume. If that is not enough, you can also manage and control all RGB LEDs synchronously via the mainboard using the integrated 5V RGB header (addressable RGB LEDs).

The 24 integrated RGB LEDs per 120mm fan guarantee extraordinary lighting effects. Rubberized pads below the mounting holes reliably prevent the fans from transmitting vibrations to the PC case and ensure smooth operation at up to 1200rpm and max. 30dBA.

The set can easily be expanded with up to 7 additional, optionally available Argus RS-081 RGB fans.

- ✓ Effects controllable via music/noises or radio remote control
- ✓ 3pin RGB header connector for 5V RGB mainboard control
- ✓ 24 bright RGB LEDs per 120mm fan
- ✓ Expandable by 7 more RGB fans

## Specifications

Fan dimensions (H/W/D)	25/120/120mm
Fan speed	1200rpm
Rated voltage	12V
Air flow/ fan	59.47cbm/h
Noise level/ fan	max. 30dBA
Connector	4pin Molex
Package dimensions (H/W/D)	135/135/125mm
Weight (net.)	480g
Weight (gross)	645g
Packing units (VE/VPE/PAL)	1/20/480
Warranty	24 Months
Article number	88885541
EAN-Code	4260455646208
Scope of delivery	3x Argus RS-08 RGB LED fan Control unit for up to 10 fans (adhesive mounting) RF wireless remote control Fan screws Manual (german)
Features	Three Argus RS-08 fans with 24 RGB LEDs included Expandable to a total of 10 fans Effect control via remote control or music/sounds 3pin RGB header connector for 5V RGB motherboard control Fan speed control possible via remote control Rubberized fan corners for vibration-free operation 2pin connector for connecting the RGB control unit to the reset button of the PC case Fan with fluid bearing
