

IPC 1U-K-125L

The **IPC 1U-K-125L** is the perfect rack for a small and cost-effective server system. Its compact design and its small installation depth of 250mm for Mini ITX boards allows this case to fit in to nearly every rack.

The **IPC 1U-K-125L** provides internal space for optional 1x 3.5" or 2x 2.5" hard drives. Three standard 40mm fans, which are internally mounted behind the front panel, ensure a reliable and optimal cooling.

A standard 250W power supply with enough connectors for your components, as well as the **USB 3.0** and USB 2.0 ports in the front panel complete the package.
